The time period for reply, if any, is set in the attached communication.

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner indicated that the amendments submitted on 3/24/2010 are essentially the same as those which were previously rejected in the Final Office Action dated 6/2/2009 and that prosecution was not being advanced. The Examiner indicated his interpretation of the reference and how it still reads on the amended claims, and as such requested the applicants to point out any subject matter which may not be claimed but is in the originally filed specification. The applicants indicated that a further review would be needed and therefore were unable to further discuss the case.
